

INTRODUCTION

A pre-planned emergency and orderly response by response team is vital to minimizing the potential of devastating hazardous material spillage. This program is designed to focus on hazardous material spillage control, preventive measure, and effective response at workplaces.

OBJECTIVE

End of the lesson, response team will be able to handle hazardous material spillage more confident, more systematic and carry out preventive measure effectively.

THIS TRAINING IS SPECIFICALLY TAILORED TO YOUR WORKPLACES, YOUR WORKPLACES EQUIPMENT AND YOUR CHEMICAL RESPONSE GUIDELINES.

Course Content & Highlight:

Module 1: Chemical Hazard Management

- ✚ Understanding Chemical Risk & Hazard
- ✚ Identification of Safe & Unsafe Practices
- ✚ Mitigation and Control Measure
- ✚ Handling and Storage

Module 2: Safety Data Sheet

- ✚ Introduction to Chemical PPE and Spill Equipment
- ✚ Various Work Zone
- ✚ Video Presentation

Module 3: Role and Function of Response Team

- ✚ Approaching Incident Area
- ✚ Size Up Incident Area
- ✚ Scenario Drill

Practical Session

- ✚ Mock Drill
- ✚ Debrief
